Lodz SEZ to host new investments

2009-07-17

Cortizo, Adamed Pharma, Wagran and Cedrob - are among new investors who were granted business activity permits in the Lodz Special Economic Zone in central Poland. The companies are to invest PLN 123.5 mln.

Cortizo, a Spain-based European leader in aluminum products is to construct a factory producing aluminum elements for window woodwork and façade construction in the Radomsko sub zone. It will invest PLN 23.7 mln. This is Cortizo's first project in Poland.

Another project will be by Adamed Pharma. The company wants to expand its Pharmaceutical Factory situated in the Ksawerów sub zone. The facility is planned to be expanded to include new storage and office space and will have a new quality control laboratory. Investment outlays are planned to reach PLN 35.5 mln.

Wagran, another company which was granted the permission, will invest in Tomaszów Mazowiecki. The company will invest PLN 9.5 mln in the construction of a factory producing granite sinks to be distributed in co-operation with the Deante chain.

The Raciąż sub zone will host an investment financed by Cedrob. The company will build a factory producing fodder for domestic animals. The company allocated PLN 55 mln to the project. Cedrob is the 11th investor who was granted a business activity permit in the Zone this year.

Investors attracted to the Zone this year declared to invest 300 mln PLN and hire round 800 people as well as to maintain the 900 workplaces they have already created.

The Łódź Special Economic Zone was established in 1997. It covers an area of 1162 ha located in three different of Łódź, Wielkopolska and Mazowsze. The Zone consists of 41 sub zones. A total sum of PLN 8 bn has been invested in the SEZ. The number of declared jobs reached 20,000. (PAIIZ)
